A group of young and talented IT and Computer Science researchers will work together extensively with professionals from the industry on finding creative solutions for challenging problems proposed by companies.

The annual 5-day workshop provides a unique networking opportunity for IT and Computer Science researchers from universities and institutions throughout The Netherlands and gives them the chance to apply their scientific knowledge to different industry cases.

**WHO CAN JOIN?**
PhD students, postdocs and young researchers working in the field of IT and Computer Science in the Netherlands.

**JOIN OUR MAILING LIST TO STAY UPDATED**
