Does your organization or company have a challenging case waiting to be solved? Then have a group of talented physicists take a look at it!

During the Physics with Industry workshop, young physicists work together on finding original solutions to challenging problems. If you want your company case to be reviewed, you can contribute by submitting it now!

GOALS OF THE WORKSHOP
• Realize concrete, practical solutions to relevant problems
• Strengthen cooperation and knowledge exchange between science and industry
• Providing unique networking opportunities for both scientists and industry

SELECTION CRITERIA CASES
• Your case is scientifically challenging and raises concrete questions in the (broad) field of physics
• A (partial) solution can be realized in a week of hard work
• Your company actively participates in the workshop

DEADLINE COMPANY CASES
12 May 2023
